Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on November 13, 2006 has been entered.

Response to Arguments

Applicant's arguments, regarding claims 8 and 46-54 have been fully considered and are persuasive.

Applicant's arguments with respect to claim 55 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 55 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Application/Control Number: 09/665,743 Page 3

Art Unit: 2616

1. Claim 55 recites a processor but has only a single means (the processor) for performing the method (MPEP 2164.08).

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 55 is rejected under 35 U.S.C. 102(b) as being anticipated by Kimball (US 5,953,322).

2. Kimball discloses a processor (fig. 4, item 50) for reducing transmission overhead in a communications system (col. 7, lines 6-14; col. 3, lines 51-59). However, Kimball does not specifically disclose that the processor is configured to perform the functional steps of the claim. Although, the processor of Kimball is capable of and has a configuration to perform these functions if given the proper computer instructions for execution (col. 6, lines 55-60). Kimball notes that the processor performs various functions by only executing different computer instructions (col. 7, lines 19-22 and 24-65). Further, Kimball recognizes that the structure of a processor does not change in order to provide additional or different functionality (col. 7, lines 19-22; MPEP 2114).

Allowable Subject Matter

Claims 8 and 46-55 are allowed.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Harper whose telephone number is 571-272-3166. The examiner can normally be reached weekdays from 11:00 AM to 7:00 PM ET.

Application/Control Number: 09/665,743

Art Unit: 2616

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Doris To, can be reached at 571-272-7629. The centralized fax number for the Patent Office is 571-273-8300. For non-official communications, the examiner's personal fax number is 571-273-3166 and the examiner's e-mail address is kevin.harper@uspto.gov.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications associated with a customer number is available through Private PAIR only. For more information about the PAIR system, see portal uspto gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
